

PUNCH-Lunch –

the online lunch seminar of the PUNCH4NFDI Consortium

Every second Thursday, 12:30-13:30 hrs: keynote and discussion

Thursday, 19 November 12:30 hrs:

Thomas Schörner (DESY) et al.:

The PUNCH4NFDI Consortium and the

National Research Data Infrastructure (NFDI) –

FAIR data management for (astro)particle, astro-, hadron & nuclear physics.

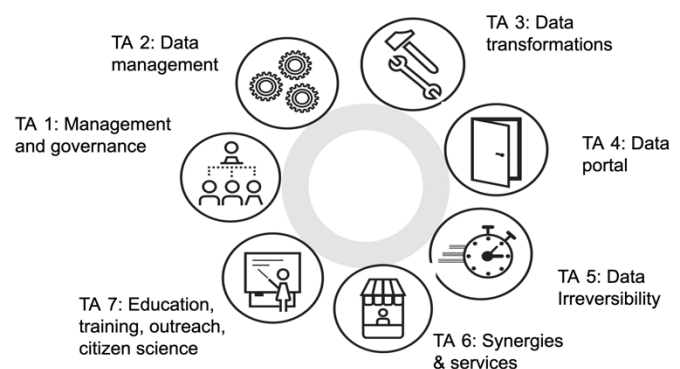

Abstract:

The National Research Data Infrastructure NFDI aims for a sustainable utilisation of research data, the establishment of *FAIR* data management across all disciplines, and it encourages networking with the relevant European and international efforts like the EOSC.

PUNCH4NFDI is the consortium of particle and astroparticle physics, astrophysics, and hadron & nuclear physics in the NFDI. The consortium is

currently preparing for the evaluation of its proposal by the DFG in December 2020, and it is starting to offer its services – most notably the PUNCH4NFDI science data platform (SDP) to the PUNCH communities and beyond.

In this presentation, we will introduce the NFDI, the *FAIR* data principles and the PUNCH4NFDI consortium and will try to answer your questions concerning these topics. In particular, we want to explain in which respect PUNCH4NFDI will be relevant for your work probably today, and certainly tomorrow.
