

PUNCH-Lunch –

the online lunch seminar of the PUNCH4NFDI Consortium

Every second Thursday, 12:30-13:30 hrs: keynote and discussion

Thursday, 28 January 2021, 12:30 hrs:

**Torsten Schrade (Akademie d. Wissenschaften & Literatur, Mainz) and
Kilian Schwarz (GSI):**

PUNCH4NFDI and NFDI4Culture –

natural sciences and humanities in the NFDI

Abstract:

The NFDI consortia PUNCH4NFDI and NFDI4Culture have agreed to collaborate on several fields of common interest. This PUNCH-Lunch will focus on overarching legal and technical aspects of a FAIR data management, especially data protection and data property rights, publication of data and software as well as authorisation and authentication infrastructure (AAI).

Concerning data and software publication, the data publication policies of specific journals will be touched upon. The partnership of PUNCH4NFDI with the journal “Computing and Software for Big Science” may serve as an example for a more general discussion.

Concerning AAI both consortia work towards a single NFDI-wide authorisation and authentication solution using established approaches with dedicated identity providers. The PUNCH4NFDI AAI, following the Helmholtz AAI and EOSC/EUDAT B2ACCESS as blueprints, may serve as a technical starting point. NFDI4Culture has taken first steps to establish tools for collaboration within the consortium with a federated SSO/AAI approach and can provide experiences from these developments. This PUNCH-Lunch will provide participants with an outline on the foreseen tight cooperation of PUNCH4NFDI and NFDI4Culture on these topics and invite for active discussion and exchange.
